

# How to open a GPX file using Google My Maps?

1

Click on the icon ≡ to open the menu.

# How to open a GPX file using Google My Maps?

2

The screenshot shows the Google Maps interface with a sidebar menu on the left. A red box highlights the 'Saved' option in the menu, with a red arrow pointing to the 'Maps' option in the top right corner of the sidebar. Another red arrow points from the 'Maps' option to the 'CREATE MAP (3)' button at the bottom right of the screen.

(1) Show side bar

(2) Saved

(3) Maps

CREATE MAP (3)

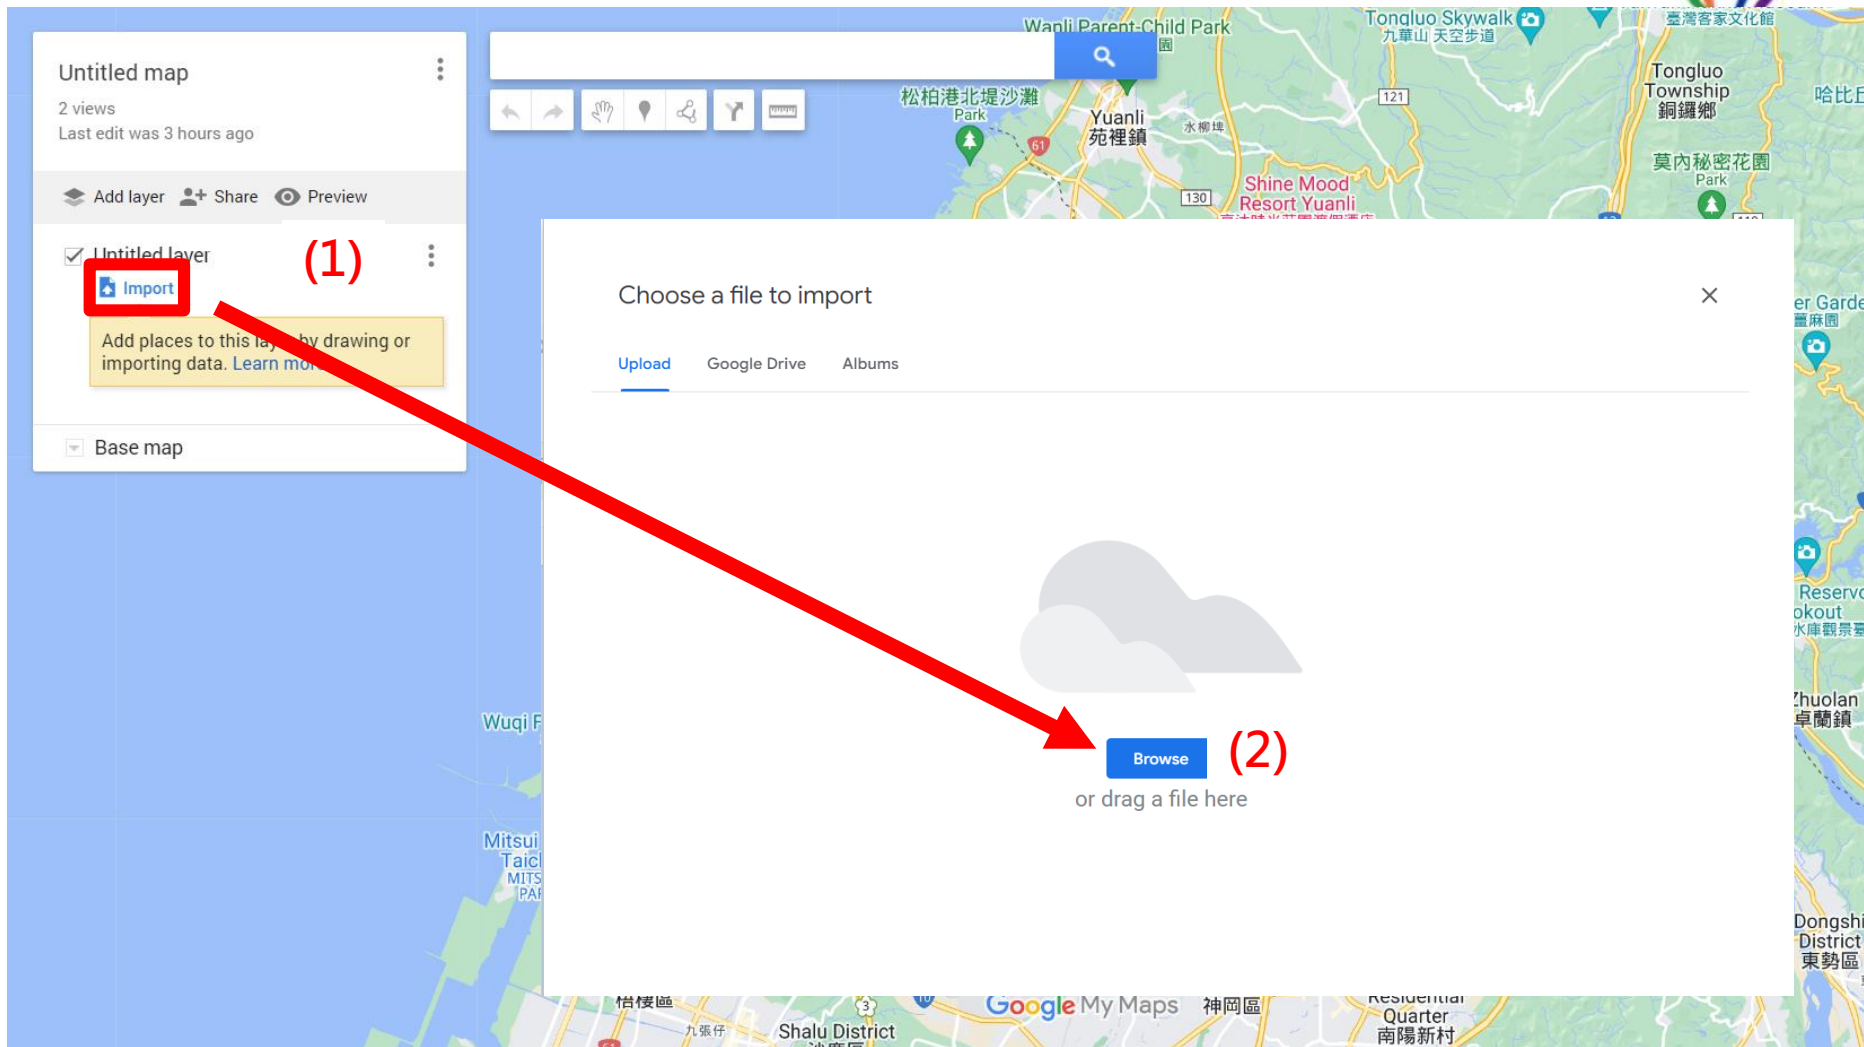

- (1) Click on "Saved"
- (2) Choose "Maps"
